

Dear Friends,

The XRCVC is happy to announce a 1-day workshop on the theme, 'Commonly used formulae in Excel'.

Microsoft Excel is a powerful application that stores a wide range of data in tabular format, making it easy to access and navigate. It organizes calculations and generates different types of reports in one click. In this process, the function and formulae play a vital role.

Excel is a very popular spreadsheet program used in educational institutions, offices, or homes all over the world. It is a product of Microsoft Corporation.

In this workshop, the basic techniques of using such commonly used functions and formulae will be considered practically with the help of Open source screen reader NVDA.

Eligibility: **Participants should have good knowledge of screen reader.**

PARTICIPANTS WILL HAVE TO BRING THEIR PERSONAL EARPHONE/ HEADPHONE.

Registrations are available on a first-come-first-served basis.

Date: Sunday, October 14, 2018

Time: 11.30 am to 4.30 pm.

Venue: XRCVC-Viviana Extension,

To register contact Mr. Vikas Dabholkar
