**Dear Friends,**

XRCVC is happy to announce on theme "Basic Android Training" Workshop.

The mobile phones is currently became part of everyone's life. In Mobile world, user access majority of things through mobile itself eg: Calling, Messenger, Banking etc.

The visually challenged user was using basic handset mobile which has buttons but currently in the technology world smartphone is ruling the world in smart way.  The visually challenged can also access the touchscreen smartphones in smart way with the help of talkback software which available in all android smartphones.

So this session help to learn the user to access touchscreen smartphones, basic application & others, etc.

**Criteria to participate in the "Basic Android Training"**

- Participants are requested to bring their phones and personal earphones.

- Mobile Android Version Requirement: Between 4.4 (KitKat) & above

**Date:** 25 March 2017 (Saturday)

**Time:** 10.30 am to 2.00 pm (Note: Sessions will not be repeated for latecomers)
