

Dear All,

- Did you know you don't need to submit KYC documents again and again if your CKYC is registered?
- Did you know that persons with disabilities can now record disability details in CKYC to make banking and financial services more accessible?
- Did you know a single KYC update can automatically reach all your banks and financial institutions?

The Central KYC (CKYC) is a Government of India system that keeps one verified KYC record. This single KYC can be used by banks, insurance companies, mutual funds, and other financial institutions with your consent.

Recent updates now include disability details in CKYC. This helps financial institutions understand accessibility needs and makes services easier and more respectful for persons with disabilities.

The XRCVC is conducting a **CKYC Awareness Workshop** to explain these and many other questions you may have. The details are as follows:
