

Dear All,

St. Xavier's College, XRCVC-Lake Shore Extension, is happy to announce an online workshop on **"Low Vision ToolKit for Windows"** under its **Tech Roshni series – A step at bridging the digital divide for blind and low vision persons.**

Do you know?

- That a large number of individuals worldwide live with low vision or partial sight?
- How persons with low vision can use a computer more effectively?
- Do you think the software needs are the same for persons with colour blindness, short-sightedness, or tunnel vision?

To address the diverse needs of low vision users, there are interesting solutions through built-in tools and other resources that can help individuals with low vision effectively carry out everyday tasks on their computers.

If you have similar questions, get ready to discover some useful and lesser-known accessibility features and tools in our upcoming Tech Roshni online workshop.

Criteria: Persons with print disabilities such as low vision. The workshop is particularly relevant for participants with low vision who use computers.

Date & Time: Saturday, October 3, 2026, at 4:30 PM IST

Venue: Online (Zoom conferencing platform)

Resource Persons: Keshavan Nadar

Those interested should kindly register by using the following link: <https://forms.gle/Z9uckBKc69g6nvmv5>

The registration link will close at 6.00 pm. On Thursday, 1st October 2026.

Please note, registered participants will receive the joining link by Friday, 2nd October 2026 (end of the day).

Hurry up and reserve your spot! See you there!

Thanks,

Team XRCVC,
