

You're Invited to Summer STEM Sense-ations!

A summer series of joyful, hands-on learning of Science, Technology, Engineering, and Mathematics skills for children and teens with blindness!

This series aims to cover:

Math on Computer

Master numbers using accessible tools—explore calculations, problem-solving, and digital math skills with ease and confidence.

Geometry

Create shapes through touch and space—build concepts using tactile diagrams, models, and hands-on exploration.

Abacus

Calculate with speed and precision—strengthen mental math and number sense using the power of the abacus.

Lab Skills

Experiment, observe, and explore—learn basic science skills through safe, hands-on activities and real-world applications.

When?

4th May to 16th May, 2026

 **Open to students with blindness in the 7th, 8th, 9th and 10th grades.**

Venue: XRCVC, St. Xavier's College, Mumbai
