

Dear all,

St. Xavier's College, XRCVC-Lake Shore extension is happy to announce an online workshop on the theme **"Labelling Solution of Spacefelt"** under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons.

- How can a person with vision loss label products or documents independently?
- How can non-braille readers organize and identify items such as clothes or medicines?

To address these challenges, we will explore the Spacefelt Labelling Solution, an innovative app that enables persons with visual impairment to tag, label, and identify objects independently at home and at work. This simple yet powerful tool empowers users to enhance accessibility in their daily lives.

The XRCVC is going to conduct a one-hour Tech Roshni Awareness workshop on **"Labelling Solution of Spacefelt"**. In this workshop we will explore and learn what is labelling solution and how it works with a mobile screen reader. The interested participants can register for this workshop by clicking the below Google form link on or before Thursday, July 30, 2026 by 6:00 PM.

<https://forms.gle/ecDbQQGY1ib1pRW18>

Workshop Date and Time: Saturday, 1 August 2026 – 4:30 PM India
