

Dear All,

St. Xavier's College, XRCVC - Lake Shore Extension is happy to announce an online workshop on the theme **"Using LibreOffice Writer with NVDA"** under its Tech Roshni series – A step at bridging the digital divide for blind and low vision persons.

- What would you do if Microsoft Office is not installed on your computer or stops working properly?
- Did you know that LibreOffice can serve as a powerful and free alternative to Microsoft Office?
- Are you confident in using LibreOffice Writer efficiently with NVDA, or would you like to learn practical techniques to make the experience smoother?

Accessible word processing is not only a best practice but also an essential step toward ensuring equal participation in education, employment, and everyday communication. NVDA is a powerful screen reader that enables blind and low vision persons to interact with digital content, while LibreOffice Writer provides a free and versatile platform for document creation. This workshop will provide participants with a practical understanding of how to use NVDA with LibreOffice Writer, demonstrations of key features, and guidance on making everyday document tasks more inclusive and efficient.

Interested participants should register on or before **Thursday, 27 August 2026 by 3:59 PM** using the registration form link appended below.

<https://forms.gle/MsNa6BPpGWhC5XLF7>

Workshop Date and Time: Saturday, 29 August 2026 at 4:30 PM (IST)
